

Co-founder / Full Stack Web Developer

Sci Check is a startup in Berlin with the vision to open academic publishing safely. Our goal is to build trust in science, reduce barriers and make knowledge accessible to the public worldwide. We check the validity of research published online and communicate its safety to the reader. With Sci Check, readers know exactly what research articles they can trust and researchers can prove the quality of their work – all in a few clicks.

To complete our founding team, we are looking for a co-founder and/or employee with a background in software engineering. This is a unique opportunity for an ambitious, multi-talented individual who wants to develop innovative products from scratch, build and grow with the company and make an impact.

What awaits you

- You will develop and improve our online platform and develop new tools for our product portfolio
- You will also be involved in architecture design, system integration, testing, and other topics
- As part of the team, you will collaborate with and manage relevant stakeholders
- At Sci Check, you can develop yourself with the prospect of building and leading the IT department

Your profile

- Professional experience in full stack web development in project teams
- Knowledge of current programming languages and frameworks for web development e.g. JavaScript, TranScript, Python, C#/.Net, Java, HTML, CSS, Nest.js, Node.js, gatsby.js
- Experience with interfaces such as REST API or GraphQL
- Database experience e.g. SQL, MongoDB, NoSQL, PostgreSQL, and cloud technologies like AWS or Azure
- Knowledge of responsive Design with React, AngularJS, vue.js or similar
- A cooperative, motivated and solution-oriented team player who likes to create new products
- Good English and ideally German proficiency with Berlin residence

Young, ambitious applicants who are at the end of their studies and have experience in web development are also welcome to apply.

Benefits

At Sci Check, we care about each other and it is one of our top priorities to foster an open and caring environment in which everyone feels welcome and comfortable. As part of our team, you will benefit from

- Flexible working hours and home office
- Time and space for personal training
- Varied tasks in an innovative environment
- Opportunity to develop professionally and take over more responsibility
- Putting your own ideas into practice and help shaping the company
- First-hand experience on entrepreneurship
- creating a positive impact on making research safe and accessible to all people worldwide

Join our mission, join our team – and grow with us!
