

About us

We offer robotics solutions for the construction sector. We are currently developing a painting robot for interiors to support skilled workers on large monotonous surfaces.

We started two years ago and currently have a prototype that we are testing in the lab. But there is still a lot of development work to be done and for that we are currently expanding our team.

With us you will be contributing to a highly innovative product and working in a friendly atmosphere. We are a young company. You will have the chance to help develop a lot and grow with the company.

To strengthen our team we are currently looking for:

- 👑 **Development engineer (m/f/d) Robotics/Sensors/Vision – Full-time**
- 👑 **Working student – Business Development (m/f/d)**
- 👑 **Working student – Development engineer (m/f/d) Mechanical Design**
- 👑 **Working student – Software development (m/f/d)**

We also offer internships and theses in different areas!
