

Medical Co-Founder (Berlin)

About Noah Labs

Cardiovascular diseases are the #1 cause of death globally. Our mission is to help people live longer and happier lives despite their chronic heart condition. We're a Berlin-based startup focused on cardiac health technology. The firm was founded by [Marcus Hott](#) (Machine Learning TU München + Harvard Med) and [Oliver Weiss](#) (Economist, serial entrepreneur and public health expert). Noah Labs raised initial funding from *Entrepreneur First* and is proudly supported by *EIT Health* and the *Berliner Startup Stipendium* which is jointly run by *Charité* and the Berlin-based universities.

Candidate Profile

We're seeking a **Medical Co-Founder** to join the existing founders team. The ideal candidate meets the following criteria:

- Personal fit with co-founders
- Medical Doctor, ideally with clinical experience (Assistenzarzt)
- Digital health enthusiast with knack for technology
- Ideally strong cardiovascular expertise
- Willingness to re-locate to Berlin
- Fluency in German
