

MY GREEN WINDOW  
is searching for an  
Industrial product designer

MyGreenWindow is a pre-seed startup venture based in Berlin. We have spent the past 9 months developing an affordable vertical planting system and laying the groundwork for our business. We are now ready to take our business to the next level and tailor our product to mass production, with the intention of entering the market in the coming months. As such, we are looking for a motivated and competent person with experience of industrial product design to join our team as a co-founder.

Candidates should have experience of 3D CAD modelling, which will be required for product development. Other fields of expertise which would be of interest would be electronics and plastic manufacturing.

Please visit our social media ([https://www.instagram.com/my\\_greenwindow/](https://www.instagram.com/my_greenwindow/)) and our website ([www.my-green-window.com](http://www.my-green-window.com)) to see what we're up to.

If you're interested in learning more about this opportunity, please reach out to our CEO James via:
